

Hydratec Engineers and Consultants

ISO 9001:2008 CERTIFIED COMPANY

Vision & Quality Policy

Hydratec was established in 1995, with a vision to create a successful consultancy in water / sewage / effluent treatment industry which delivered total satisfaction to the customer. Hydratec aims at providing clients value for their money by offering optimally designed quality products and services which incorporate the latest environment friendly technology. The team strives to deliver the said products and services at the best price and at the right time, while maintaining high levels of customer service and engineering expertise.

At Hydratec, we endeavour to continually improve upon the services provided by using the latest management tools & international technology.

About Us

Hydratec is a Water/Wastewater Treatment Company engaged in Design, Engineering, Supply, Production, Commissioning, Maintenance and Operation of various types of Water, Sewage and Effluent Treatment Plants, including the following:

- Effluent Treatment Plants
- Sewage Treatment Plants
- Reverse Osmosis Based Desalination Systems
- Swimming Pool Systems
- Clarifiers-Flocculators, Aerators, Agitators
- Packaged Iron Removal Systems
- Recycling Systems for Automobile Service Stations
- Packaged Drinking Water Treatment Systems
- De-Mineralization Plants
- Water Pumping & Distribution Systems
- Rain Water Harvesting Systems
- Fire Fighting Systems
- Hydro Pneumatic Water Supply Systems

At Hydratec, we have a core team of highly experienced engineers and consultants with a wealth of experience in the water, sewage and effluent management fields. We work closely with our clients to support and enhance their water and wastewater capabilities, delivering efficient and effective water and wastewater management outcomes which integrate seamlessly into both their immediate and long term business requirements. Our long term relationships allow us to support our clients through to the successful implementation of our recommendations.

Our Services

Our approach is to provide clients with holistic support, thus our services are always aligned with our clients' requirements. Experience and knowledge of all aspects of water & wastewater management and engineering allow us to continually improve and adapt our services to ensure client satisfaction.

The company undertakes turnkey projects in the following broadly classified fields:

- **Water Treatment Plants**
- **Wastewater / Sewage Treatment Plants**
- **Reverse Osmosis Systems**
- **Swimming Pool Filtration Plants**

We are involved right from the design & specification to commissioning and process validation of the projects. Senior technical support related to operation and maintenance is also available.

Till date, Hydratec has implemented more than 150 Swimming Pool Systems, 100 Water Treatment Systems, 50 RO Systems and more than 100 Sewage / Effluent Treatment Plants.

Customer Testimonials

We are completely satisfied with their performance.

- **Ansal API**

We as well as Bharat Petroleum Corporation Ltd. (BPCL), Noida are fully satisfied with the job (ETP) completed in record time of 3 months with highest quality of workmanship.

- **Indian Institute of Technology (IIT), Roorkee**

We find the firm to be receptive, creative and cost conscious. We are satisfied with their work.

- **Institute of Driving Training and Research
(managed by Maruti Udyog Limited)**

Hydratec is a team of competent personnel who have thorough knowledge of the system. We are fully satisfied with the quality of water achieved through this system and technical service backup offered by the firm. We wish them all success.

- **Young Men's Christian Association (YMCA)**

The ETP is working satisfactorily and giving results as stipulated by Delhi Pollution Control Committee. We are also happy with the after sales service provided by the Hydratec.

- **MGF Hyundai**

It is certified that the WTP installed at our above food processing factory is working to our entire satisfaction. Our customers are also very happy with the microbiological results of our products. The aforesaid WTP is the main factor responsible for attaining the excellent results. We also confirm that the after sale service offered to us is par excellence. In addition to the plant, we are totally satisfied with the installation of their Alfa Series dosing pump for injecting liquid chlorine where ever required.

- **Flavours & Foods (India) Pvt. Ltd.**
